INTRODUCTION

Did you ever wonder what it was like to be one of the great Masters of art?

How would you have chosen the right subject for your work?

Which mood would you have put into a specific painting?

What colors would you have chosen?

Now you can give the paintings of your most admired painters your own personal touch!

This coloring book contains images which are derived from paintings originally painted by Vincent van Gogh.

For purposes of coloring, all images were reduced to outlines of the objects they contain and some line work for texture. For every image the title, date and location as well as a short description are given. This makes it easy to find reference photos online,

if you want to stick to the original.

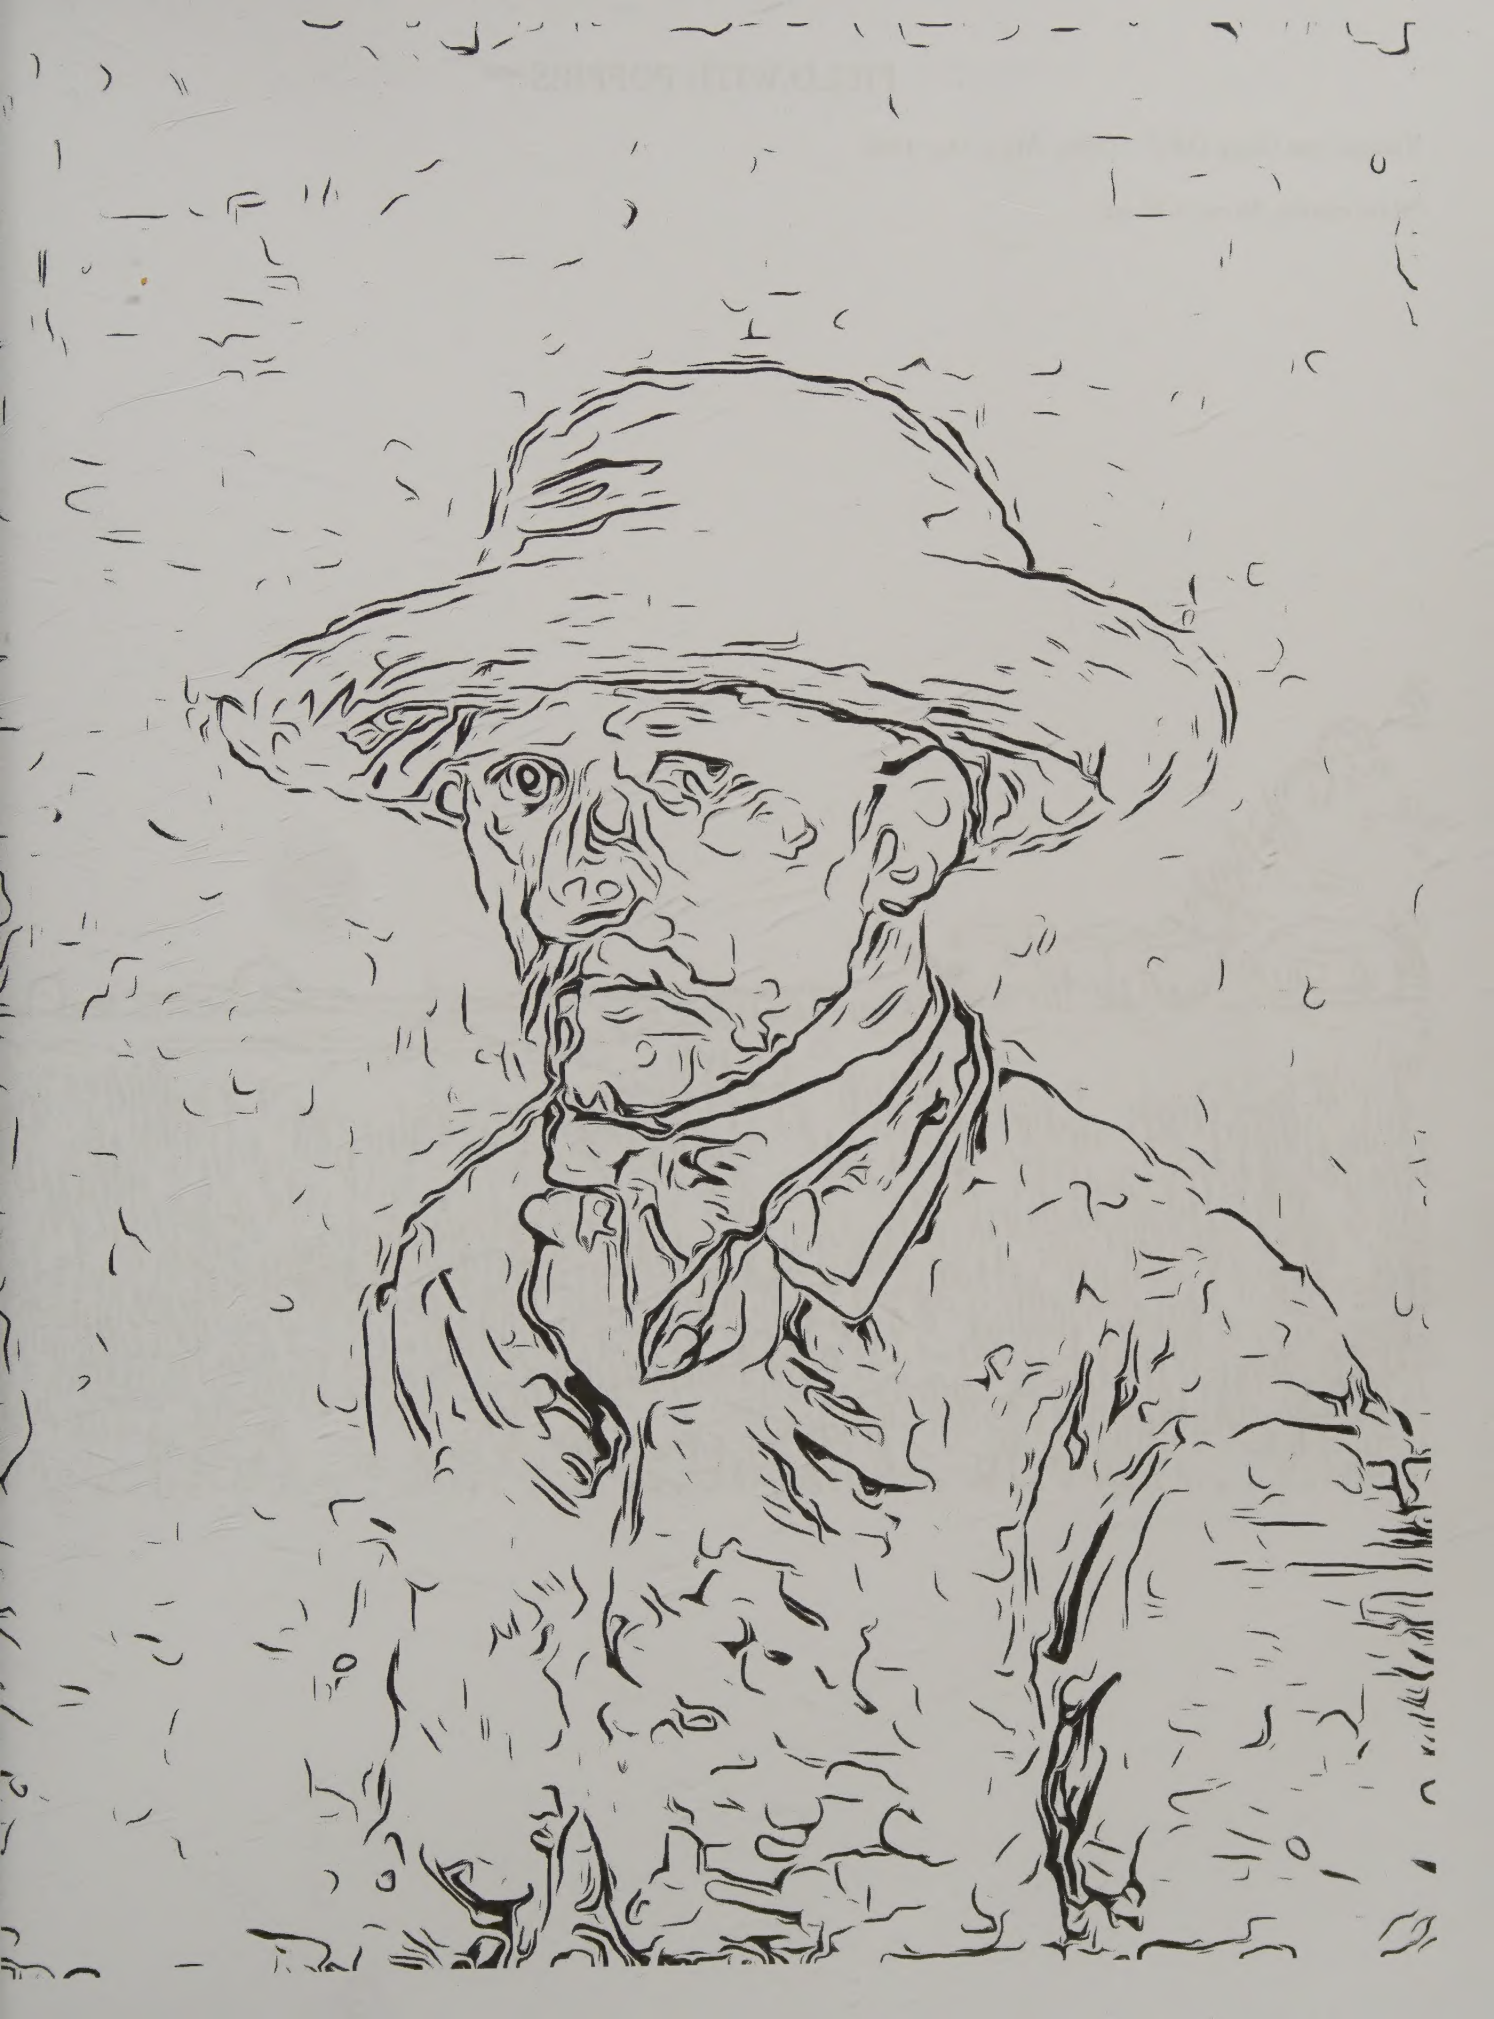

I wish you a lot of fun with this coloring experience!

Christian Bauer
